

February 21, 2023

Dear Valued Business Partner,

The County of Union is implementing an initiative to address local litter issues. Over the course of four months the staff and administration of Union County will identify one location a month to clean up. If we would like to see a “Better Union” we must lead the charge.

We are asking local organizations, small businesses, industries, and citizens to join us as we make cleaning up Union County a priority. Together we **CAN** make a difference.

Should you wish to volunteer or have your team join us please reach out to us to sign up for the date you wish to participate. Directions for participation will follow once you are signed up.

See attached flyer for locations and dates.

Please do not hesitate to reach out 864.466.6769. Thank you for your consideration!

Sincerely,

Jami Trammell

Jami Trammell, Deputy Director
Union County Development Board
